

Forget Bigfoot. Our footprint's been proven petite.

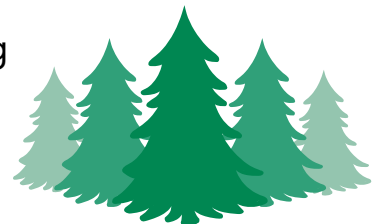

We're both found among the woods of the Pacific Northwest, but NORPAC'S footprint is small.

Natural Choice copy paper has only 44% of the carbon footprint of standard copy papers, according to third-party analysis. Plus, we use less wood to make it, so more trees remain growing to absorb carbon from the atmosphere.

Natural Choice copy paper from NORPAC.
The paper with the petite carbon footprint.
